Fighting The Japs

SHIRLEY McLEAN

Pfc. Shirely McLean, now in Australia, has written about many interesting things on the continent down under. At present he is believed to be in the thick of the fight as the American troops mop up on the Japs in the Solomon Islands.

McLean writes often to his parents, Mr. and Mrs. J. M. McLean in Cameron. The last letter was received here on August 2, 1942.

He is a machine gunner in Company F 163rd Infantry and with a division that sailed from somewhere on the West Coast for Australia. He left Cameron for Camp Wallace at Houston in October 1941. He was transfered to San Antonio and later to Camp Roberts, Calif. He was at other army camps in the country before he left for Australia. He has made good grades in all his training periods and is one very good reason why the United Nations will win this war.

Shirley is a graduate of Yoe High School. Along with his brother Joe McLean, he played football for Yoe High School. He went to Houston after his graduation from high school here and returned to Cameron from which place he was inducted into the army.

CAPT. EUGENE KEY IS LOST IN SOLOMONS

Capt. Eugene Key, second son of Mr. and Mrs. Ira F. Key, formerly of Cameron, has been killed in the Solomons Island battle, it was announced in a telegram to his parents Tuesday.

Captain Key was in the United States Marines and it is presumed he lost his life as the Marines landed and took over the islands.

Born and reared in Cameron, many boyhood friends will remember him. His father was pastor of the Methodist Church here and later became a Presiding Elder.

It was learned by the Daily Herald that the family has been advised that the body of the Captain will be buried somewhere in the South Pacific Islands where he died in a gallant fight against the Japs. Advices were it was deemed best to bury the Captain there.

LONDON SAYS CITY WILL SOON BE TAKEN

Stalingrad, key city to the South Causasus and vital industrial center on the Volga has been conceded lost to the Germans, said a London message Thursday.

The Russians have been forced to give up additional ground and the British say the city will fall in a few days. London always announces the fall of important cities and strategic centers in other countries.

While the Russians were battling for their lives the United Nations were displaying nothing to indicate they will fight. A recent dispatch said that the Allied Staff is muscle bound and has lead in its pants.

President Roosevelt Thursday sent a message to the youth of the world and talked of peace. The war must be won first.

If the Reds lose Stalingrad they will have been substantially impaired and though they will continue through the winter, may not be able to survive next spring when Hitler, still unchallenged on another front, hopes to win the war.

LIEUT. FRANK M. NEWTON IS MISSING

CAMERON FLYER LOST IN AFRICAN BATTLE

Lt. Frank M. Newton, United States Army Air Corps, recently arrived on the battle front in North Africa, was reported missing in action from August 21st, in a telegram to his mother, Mrs. W. R. Newton, Sr., last night.

The telegram which came from Army Air Headquarters in Egypt, merely stated that Lieut. Newton was missing in action and additional details would be cabled as soon as received.

It was not known whether the Lieutenant had lost his life or whether he had been forced down in the desert or plunged into the Mediterranean, or whether he had been shot down in battle.

Lieut. Newton left Lakeland, Florida, recently for the battle front in North Africa. He wrote his mother of his safe arrival there.

In a letter written to Mrs. Newton and dated August 15th, Lieut. Newton told of the bombing raids in which he had taken part. He also spoke of the Holy Lands which he had seen from the pilot's seat in a B-24 four motored bomber which he has been flying into battle. He recently paid a visit here in a bomber, flying over the city and his mother's home.

Lieut. Newton, a brother of Dr. W. R. Newton, Jr., enlisted in the air corps in the early summer of 1941 and got his wings at Luke Field in Arizona. From that place he was transfered to the field at Shreveport, La., and then to Lakeland, Fla., where he completed his training with the B-24.

Lieut. Newton is the son of the late Dr. W. R. Newton, Sr., noted surgeon and a member of the State Senate.

It was believed here he had been based somewhere in Egypt. The American airmen have been in the thick of the fight for some time over the battle lines, bombing supply lines of General Rommel and engaging in bombing of Tobruk and other Mediterranean ports.

30 Negroes Leave Cameron for Army

Thirty negroes left Cameron Thursday morning for the army induction station at Fort Sam Houston.

Heavy draft calls are being received by all local boards. The percentage of rejections at the induction station is unusually large.

Germany Wants to Put Air Force at Dakar Says Report

The Germans have asked Vichy, France, for permission to use Dakar as an air base and to land dive bombers in this strategic African possession.

There was little doubt the Germans would occupy Dakar. It is the jumping off place for an attack on South America and besides would have been vital to the United Nations.

Too late and too little can also be said of Dakar.

Tobruk Pounded in Greatest Blasting Of African War

Tobruk now in German hands was blasted Wednesday in the most devastating raid of the entire African war.

American and British bombing planes are in the fight. The American B-25 and B-24 are sharing with the British bombers the job of tearing down the city which has changed hands several times since the beginning of the war.

General Rommel who early this week attacked the British has suffered great losses in tanks. American tank units are fighting the Germans in Egypt.

Mrs. R. F. Bielefeldt and daughter, Valorie Sue of Pampa, Texas, are here visiting her parents, Mr. and Mrs. J. L. Slaughter.

RATION BOARD HEAD WARNS ABOUT TIRES

Sam Perry, Chairman of the Milam War Price and Rationing Board, made it plain today that all motorists are going to have to intensify tire conservation, and that many persons on the eligible list for tires and retreads are going to be disappointed because of the quota shortage.

"Both truck and passenger car tire allotments have been reduced sharply for September," Mr. Perry explained, "and we're obliged to make these reduced quotas serve only the most essential needs."

He pointed out that these reductions come at a time when all vehicles, especially trucks, are working overtime on construction and industrial production.

"The result will be that our Board will have to apply the eligibility preference yardstick with even more severity," he said. "The shoe will pinch in many cases, but we hope everyone will take these decisions with a wartime spirit of patriotism, and know that we are trying to do our duty honestly and impartially in a national emergency."

The State Office of Price Administration headquarters has advised the Milam County War Price and Rationing Board, Mr. Perry added, that from now on, monthly quotas will reflect a sharp downward trend, in order to stay within the year's rubber quota.

"It is no longer possible to carry over unfilled applications from month to month," Mr. Perry explained. "There will not be sufficient quotas in future months to relieve such carryovers. We must now eliminate all applications that are not essential to the war effort and to the public health and safety."

His parents had not heard from him since war was declared until he sent a post card greeting to his mother on Mother's Day. They do not know where he is located.

Their first knowledge of his being cited for bravery in action came in the newspapers and from letters received from friends who read of his exploits with the fleet.

President Roosevelt sent a message to youths of all nations Thursday and also to the fighting forces all over the world.

The President's speech was the usual thing, nothing new and nothing to indicate any battle action. Idealism was the chief theme of the address.

The peace, he said will be secured after this war, not thrown away as in 1918.

Forces, he said are operating in the world to defeat peace now, but the United Nations will see to it that victory is protected.

WITH THE BAPTIST

I have just come from morning service where 50 were gathered for worship. Dr. Hargrove brought a unique message on the "Poise of God." People are coming. Many heard the message last night on "Tragedy of Sin" in which preacher said, sin has as its father the Devil, it is anti-God in nature, deceitful in spirit—insane in purpose and expression and is filthy. Dr. Hargrove closed wth an appeal for all to accept and live close to Him, who can kill power of sin.

He preaches tonight on the subject "Sin and the Savior." The services are at 8:15.

Rev. C. W. Sanders.

Charles Burkes of Houston made a trip to Cameron Monday. Mr. Burkes was a former resident of Cameron.

JAPS FIGHT THE SOVIET

Briefly summarized the war news of the day was featured by the imminence of a Japanese attack on Russia.

News forecasts said the Japs are preparing to invade the far eastern empire of the Soviets in carrying out the trade with Germany and to reduce Russia.

If the attack occurs it will further emphasize the weakness of the United Nations. Japan could not undertake such a campaign if she faced opposition elsewhere. Some thought she might be trying to secure her homeland against closely located air bases.

The RAF raided Saarbrucken with three to four hundred planes Tuesday night and great destruction was laid upon this industrial portion of the Ruhr Valley.

Stalingrad is in grave peril and will fall to the Germans, it was indicated by noon reports. The Reds are holding on all other fronts and even counter attacking.

News will not be available to the people in scope during the next few days, it was said.

REDS HURL GERMANS BACK ON THREE FRONTS

Counter attacking with great fury the Red Army on two fronts west of Moscow were throwing the Germans back and dealing them telling blows while around Leningrad they had pinched off a dangerous sailent thrust almost to the gates of Leningrad.

To make a better showing the Russians bombed Berlin and ranged over a vast part of Germany dealing the Nazi misery in their home lands.

The Germans were pressing on however. They reported they had reached the outposts of the city of Leningrad.

Russia seemed determined to defend the city at all costs.

Jap Cabinet Change Indicates Attack on Siberia Very Soon

Premier Tojo Tuesday took over the duties of one of his chief aides in the Japanese government, General Togo who resigned because of personal reasons.

The news came with the suggestion that Japan is preparing for an early attack on Siberia.

It was believed such a attack was a part of the Axis strategy to force Russia out of the war.

Dispatches Tuesday indicated that Russia is very much in the war and may force Germany out, especially in view of the sustained defensive stand before Stalingrad.

Mr. and Mrs. G. C. Barmore of Houston and their daughter, Joan, have returned after a visit here in the home of Mr. and Mrs. J. S. Bragg and Mr. and Mrs. J. L. Barmore. They had their home remodeled and have rented it to Mr. Poteet who will be principal of the Ada Henderson School this year.

Monta Thomas, 30 Years Fire Chief, Is Given Ring by City In Appreciation of His Services

Monta Thomas, for 30 years Chief of the Cameron Volunteer Fire Department, was given a ring by the city government Friday night in testimony of public appreciation for his long and distinguised service.

The City Council was covended in special session by Mayor Leland Green. Other than members of the city government a large delegation from the Fire Department attended. Mayor Green presided and stated the purpose of the meeting, after which he presented the City Secretary and Treasurer, Dan Tyson who appropriately reviewed the achievements of the honored guest.

Among other things the Secretary said, "As has been stated by our distinguished Mayor this meeting has been called for the purpose of doing honor and paying tribute to one of our most patriotic citizens, a good neighbor and a loyal friend; one who served our city faithfully for thirty years as Fire Chief. The gentleman to whom I refer is our special guest of the evening the Hon. Monta Thomas.

"Perhaps, if a search were made history would reveal," continued Mr. Tyson, "but few men have attained such success and distinction as a public servant as has Monta Thomas. He answered the call to duty in the days of good old Tom and Jerry. Yes we all remember old Tom and Jerry and the red fire wagon. It is our hope now that those two old faithful pals are resting in a land where fire alarms, sirens and distress warnings are not heard. We are happy to have with us Monta, who was the boss and commander of good old Tom and Jerry thirty years ago.

"His constant vigilance in meeting his offical obligations evidenced his keen sense of duty and responsibility to his people. The fire records of Comeron compare favorably to that of any other city in the state. There has been no criticism from the State Fire Insurance Commission, or by any individual, or the city government or the Cameron Fire Department.

Our ex-chief always had the cooperation of the best fire fighters in the country. They never failed him when duty called. We know that Monta Thomas in serving the city as Chief furnished his own personal cars, purchased tires, tubes and gasoline without remuneration whatsoever, from either individual, corporation or the City.

In conclusion, as a representative of the citzens of Cameron at the request of the Mayor and members of the Board of Aldermen it is an unusual privilege and a distinct honor to present you, Monta, with this beautiful gold ring upon which is inscribed "M. T. 30 years of service as Fire Chief, from the City of Cameron." We hope you live many more years to wear this beautiful ring and as you look upon it day by day remember that it comes to you from the citizens of Cameron who love and respect you for the faithful service you have rendered as Fire Chief, your contribution as a citizen to our community and the wholesome life you have lived. Well done good and faithful servant."

ADVANCE 8 MILES IN ATTACK ON ALEXANDRIA

Rommel's army of the desert began a new offensive in Egypt Tuesday with an 8 mile advance on the road to Alexandria.

Action was said to be heavy in the opening phase of the battle in which Americans are taking part. The United States airmen are doing a good job. Early Tuesday 8 German planes were shot down over the moving battle of the desert.

Although no announcement has been made of the presence there of American fighting men it is known that ground forces have been pouring into the near east theatre for some months.

A welcome development would be the news of American army units in the battle.

The Germans were striking with considerable vigor but were met by the British in the opening phases of the battle and were thrown back, said a London dispatch.

Germans Thrown Back On Stalingrad Front 3 Times On Monday

Red Russia, back to the wall, was doing some serious, effective fighting before Stalingrad today and the Red Armp under General Timoshenko had thrown back with bloody losses three desperate attacks by the Germans under General Von Bock.

Not only were the Reds dealing out death and destruction to the tired Nazi forces before Stalingrad but were holding in the Caucasus region and no where were the Germans able to make any headway.

The Nazi are within 15 miles of Stalingrad. It was conceded the Germans would take the city but at a cost too terrible to justify.

Adolph Hitler has told the German people that conditions are beyond imagination in the army and the German people must make even greater sacrifice this winter. Hitler passed his third year of war in much worse shape than when he marched into Poland in 1939.

Judge and Mrs. Gillis and Judge and Mrs. Jeff Kemp spent Sunday in Gatesville at the Boys Training School. The party was shown around the grounds and are pleased with the work being done for the boys at the school.

Mrs. Cecil McClellen of Waco and daughter of Waco, have been recent guests of her sister, Mrs. Frank Cheeves.

Mr. and Mrs. Walter Davis of Temple, spent the week end here with relatives. Mrs. Davis will be remembered as Miss Vivian Whites before her marriage.

Keeps 'Em Flying

SGT. JOHN B. DODSON, JR.

Having served three years in the United States Army Air Corps, 53rd School Squadron, Randolph Field After being honorably discharged and spending 20 months in civil life, Sgt. Dodson was recalled to active duty February 10, 1941, as a member of the regular army reserve.

Sgt. Dodson graduated from Cameron Yoe High School in 1932 and enlisted in the air corps in June 1936.

Although he is actively engaged at present "keeping 'em flying" he seems to be most interested in making the men of his outfit and post, in fact the whole U. S. more health conscious. As a result he has been assigned as morale officer and physical director of 53rd Squadron in addition to his regular duties as airplane mechanic.

We quote the Seargent in saying: "Our most urgent need today is that we, as individuals, fully realize our country IS AT WAR! Every individual owes it to himself, to his family, especially to his givernment and the boys over there to be physically fit! Let's go America!"

Jap Squadron Lost As Americans Blast

A Japanese naval squadron including one large and one small destroyer has been destroyed by American forces in the Solomons Island battle, still obscure it its known details.

There was no way to obtain facts. What was at first reported to be a victory was discounted in Washington.

Somewhere in the Islands off the Australian mainland United States ground forces were locked in a hand to hand battle with the Japs.

The Russians sent 60 bombing planes over Helsinki last night.

The British lost 30 planes last night over Nurnberg and Saarbrucken in Gemany, indicating a large raid.

LOSSES ARE HEAVY ON APPROACH TO CITY

The approaches to Stalingrad Saturday were the bloody battle ground of a decisive struggle between Soviet Russia and Nazi Germany.

Upon the outcome of the fight, already the most bloody of the war, will depend whether the Red Army can effectively continue or retreat to positions of no consequence in the war.

The Red army was holding the Germans despite heavy reinforcements brought up by General Von Bock, now one of the outstanding Generals of the present war. Against him on the Russian side is General Timoshenko perhaps the greatest fighter of this age.

Regardless of the outcome of the battle it was now generally agreed that Russia would get no help from England or the United States.

With the coming of September the Allies have been placed in a position of being able to claim weather obstacles. There was a bare possibility that the Germans might have to fight on two fronts this winter.

In the battle before Leningrad losses are very heavy on both sides. Further up the line toward Moscow the Russians are pushing the Germans back.

Judge Graham Gillis, Judge Jeff T. Kemp, Bill Alex Bonds and Sheriff Valter White attended the funeral exercises of Mrs. G. M. Lawson, an aged pioneer who had made her home in Milam county, and died at the home of a son, Weldon Lawson at Seguin, which was held Friday morning at the Christian church, at San Gabriel with the Rev. H. E. Crone, pastor of the Christian church at Rockdale; assisted by the Rev. Mr. Crow of Austin and the Rev. Mr. Stephens, with interment at Lilac cemetery.

Small Adder Snake Found at Cameron Home Here Monday

A small venemous reptile of the Adder species was killed early Monday at the Joe Kotrola home in Cameron.

The snake was brought to Herald office by Evelyn Kotrola and Myrtle Thompson. First seen by Mrs. Kotrola the snake was hissing, its head and throat expanded like a Cobra.

These snakes are sometimes called Texas Cobras and in southwest state grow to average size for Texas reptiles.

The spreading Adder is a venomous reptile of several species and belongs to the viper family. The European Adder attains a length of from two to 3 feet and is the only venomous snake found in Great Britain. Its bite while poisonous is rarely fatal.

In the United States where there are more than the average of venomous snakes the Spreading Adder is considered harmless. The Rattler, known as the most deadly of American snakes, is one of a number whose bite is fatal if the victim is without medital attention. The deadly Copperhead is more feared than the Rattler because he strikes without warning. The common cotton mouth Water Moccasin is also deadly. There are several varieties of rattle snakes, the most famous being the Diamond Back Rattler of Texas and the west.

The Adder is sometime called the puffing Adder or the milk Adder.

Out of the thousands of species of snakes in the world a very few are venomous. The Cobra of India is the most deadly snake in the world. Its bite is almost always fatal regardless of whether the victim has medical care.

The small Spreading Adder found at the Kotrola home is the first to be found here in recent years and one of few reported in this section.

HARD HITTING AUSSIES KILL ALL INVADERS

The Japanese have been thrown back in the battle of Milne bay with heavy losses, the Allied command announced in a special communique today.

"The Milne bay area is rapidly being cleared of the enemy,' the communique said.

"The Australian ground forces have been "brilliantly supported by American and Australian air units,' it added and "have thrown the enemy back into the narrow confines of the peninsula north of the bay, where he is being rapidly reduced."

Then shortly afterward in its regular daily communique the allied command announced that Japanese ground troops had been repulsed with heavy casulties in the Kokoda area, just 60 miles east of Port Moresby, inland from the Gona-Buna area.

At the same time it was disclosed that Japanese ground activity had increased at Salamaua, 180 miles due north of Port Morseby, in another phase of the resurgence of fighting over a wide area of New Guinea.

The allies attacked a Japanese cruiser and transport at Rabaul, big enemy base on New Britain, with results unobserved.

But it was the Milne bay action which provided the big news of the day.

"His losses have been heavy," the communique continued. "Some of the remanants of his forces were probably saved from destruction by evacuation by noval warfare under cover of darkness. All his heavy supplies and equipment, including tanks, were lost."

The communique said the Japanese operation at Milne bay apparently had been intended as a new step in the campaign to capture Port Moresby, main allied base in New Guinea.

"The citadel is guared by the natural defense line of the Owen Stanley range," it said. "The first effort was to turn its left flank from Lae to Salamaua, which proved impracticable. He then launched an attack in a large convoy force against its rear."

Allied planes ranged widely over enemy-infested islands north of Australia, attacking a cargo vessel with unknown results at Amboina; raiding Japanese airdromes at Guka in the Solomon isuands, at Rabaul, New Britain and at Bauna on New Guinea.

Tells About Storm Damage in San Antonio

Frank McLerran writes us from San Antonio on the day of the huricane which was Sunday.

Frank is working at Camp Normoyle and had a building partly completed when the wind struck San Antonio.

Cameron folks came through safe in the Alamo City, says Frank. Down town business houses were hard hit. The Joske department store, largest in Texas, lost many plate glass windows and part of the cornice was blown from the building. Stores like Grant's were badly damged and this store front was complete loss.

"I watched roofs on three buildings down the street from where I live roll up like paper. Signs went down like leaves from trees." Mr. McLerran came on to Cameron Monday. He said the wind velocity was 70 miles per hour at one time.

Yoemen for 1942 Start Work Tuesday

Coach Carrol Wood said Monday that he would begin football practice Tuesday night September 1st.

All boys who want to play football should report at the Gymnasium where equipment will be issued. A practice session will be held early Tuesday evening on Yoemen field.

There was no advance indication of prospects for 1942. Only a few lettermen are returning. The backfield will be hard to predict and on the whole chances are slim for anything like a 50-50 season.

Mr. and Mrs. Thad Bailey and daughter, Diann of Bryan; Mrs. C. W. Styles of Brenham and Mrs. Ben Rogers of Independence, all children of Mr. and Mrs. B. F. Bailey of Cameron have concluded visits here in the Bailey home.

Mr. and Mrs. Chas. Hammock of Okalla in Burnet county, were in Cameron Tuesday.

Miss Henriem Hefley Married Here Tuesday To Lieut. Wm. Lawrence McIntosh in Early Autumn Wedding of Beauty and Simplicity

An early autumn wedding of interest and beauty was the marriage of Miss Henriem Hefley, only daughter of Mr. and Mrs. H. M. Hefley of Cameron to Lieut. Wm. Lawrence McIntosh, Jr., of Dalhart, Tuesday afternoon, September 1, 1942, at 5:00 o'clock at First Methodist Church, Rev. Bob L. Pool, Pastor, reading the ring ceremony.

Under the arrangement by Glass, the Florist, the altar was attractively decorated with tall pedestal baskets of picady gladiola and ferns on either side of the altar and a large basket of the chosen flowers rested at the rear of the altar. White tapers burned in cathedral candelabra and shed a mellow glow over the scene. United States flags stood at the ends of the altar.

Dr. D. T. Childress of Giddings, and George Childress of Cameron, were ushers and seated relatives and close friends in satin bowed pews.

Mrs. J. L. Clinton presided at the organ and gave the nuptial music, accompanied Miss Lelia Lee Batte who sang "At Dawning."

Miss Viola Thomas, maid of honor, was dressed in a gold crepe floor length gown, banded with gold sequins, and wore black accessories. She carried talisman roses and entered alone taking her place at the altar. The bride groom and best man, Frank Cheeves, entered from the side of the altar while the minister stood at front of the altar and waited the arrival of the bride who came in on the arm of her father, H. M. Hefley, who gave her in marriage.

The bride was beautiful in a late model of acqua sheer floor length gown, banded with gold sequins. She wore a blue dinner hat with brown veil and mink fur designed by Neiman-Marcus. She wore 16 button brown gloves and golden slippers. She carried her mother's white prayer book from which fell a shower of Stephanatis. For something old she carried the point lace handkerchief worn by Mrs. George Waller at her wedding and wore Mrs. Waller's gold band bracelet.

The groom wore the dress uniform of his rank.

Mrs. Clinton wore a beautiful blue gown with a corsage of roses.

Miss Lelia Batte wore blue marquisette with a rose corsage.

The bride, charming and talented daughter from one of the pioneer families of Texas, was born and reared in Cameron. She is the daughter of Mr. and Mrs. H. M. Hefley, both prominent in this city. Mr. Hefley, widely known Texas banker, inherits from a family of builders a spirit of progress which found him in every forward movement in recent years. His uncle, the late John M. Hefley, established the First National Bank, oldest financial institution in Milam county. Mrs. Hefley, the mother, was born and reared in Burleson county and from a family of distinguished Southerners and Texans.

MISS HENRIEM HEFLEY

After graduating from Yoe High School the bride, enrolled in Southwestern University where she completed her courses and later became a member of the faculty at the University. She also graduated from the University of Texas. Popular with a large circle of Cameron's younger set, she also found a place of large service in the financial institution established by her great uncle.

Lieut. McIntosh, a native Texan was born and reared at Dalhart where his father, William L. McIntosh, Sr., resides. The family has been identified with Texas progress for many years. The father of the groom is a brother of R. H. McIntosh of Cameron, widely known business man and co-owner of the Cheeves Bros. store here. In the early days they lived in northern Milam where the father was a pioneer rancher. Enlisting as a volunteer in the army, Lieut. McIntosh by reason of his ability has risen to the rank of a Commissioned Officer. At one time he was in Cameron and with the store here. Many friends were glad to welcome him to the city again and extend congratulations over the happy circumstances which bring him back.

RECEPTION

After the wedding a reception was held for the bridal party and relatives at the home of the bride's parents. The reception room was beautifully decorated with baskets of flowers and in the dining room white brides roses featured. In the center of the table was a bride's bouquet of roses with streamers of Stephanatis. On the table also was a three tiered cake topped with miniature soldier and bride.

Punch was served from a cut glass bowl, a gift to the bride's parents at their wedding.

Miss Mary Ellen Cottle and Mrs. Russell Denning, a recent bride, Mrs. Frank Cheeves and Miss Mary Belle Batte, assisting.

Mrs. R. H. McIntosh, Mrs. Dan Tyson, Mrs. Earl Johnson, Mrs. Mary McLane Lawrence, Mrs. George Childress and Mrs. Ben B. Hunt of Austin, assisted the hostess in receiving.

J. C. Penney Company War Bond Sales Reach Staggering Total

The J. C. Penney Company's 1699 stores, whose 4th July quota for War Stamp and Bond Sales was $1,200,000 turned in the staggering total of $8,422,533.85—or almost 25% of its merchandise sales! To realize what this figure stands for in actual war material, this sum will buy one destroyer plus one submarine plus 100 Army fighter planes plus 36 light tanks!

The importance of this achievement was acknowledged by a telegram of commendation from Secretary of the Treasury Morgenthau, who took particular note of the tremendous scope of the Company-wide publicity program which made these results possible.

While the Company average amounted to about 25% of its total July sales, individual stores and individual states turned in far greater percentages than that. In Tennessee, for example, the Company's 21 stores made 69% of their sales in War Stamps and Bonds. In a small store in an upstate New York town the percentage was over 984% of volume—which meant that the store sold almost ten times the amount of War Bonds as merchandise. In Cameron the store manged by M. H. Boehner also had a very high quota.

The largest amount in War Stamps and Bonds were sold by a store which is by no means one of the Company's largest—Yakima, Washington, where $166,658.95 worth moved over the store's counters into the purses and pockets of thrifty American patriots.

From all over the country came stories of the energetic completition between stores and states and districts. Penney employees made it their chief concern to sell Bonds and Stamps—and they sold them with might and main, to customers, friends and everybody else who came within range of these super-salesmen and women.

Furnace-Type Heaters

For Sale in the U. S. A., only to persons who positively need them

Heaters are going to be scarce, of course (just like gas ranges), because these factories are making war goods. So you are not allowed to buy them unless you positively need them. Therefore we urge you to take good care of the heaters you have on hand, and profit by them. Have them in top condition for the first chilly day, to keep the place healthfully warm all winter.

The operating cost will be especially thrifty, because this town runs with cheap Natural Gas.

Gas Steam Radiator

Makes its own thrifty steam, on the spot, and you may have it vented, if you wish. (Even with thermostat-control, if desired). Enjoy your steam heat for many winters to come, on a small operating cost.

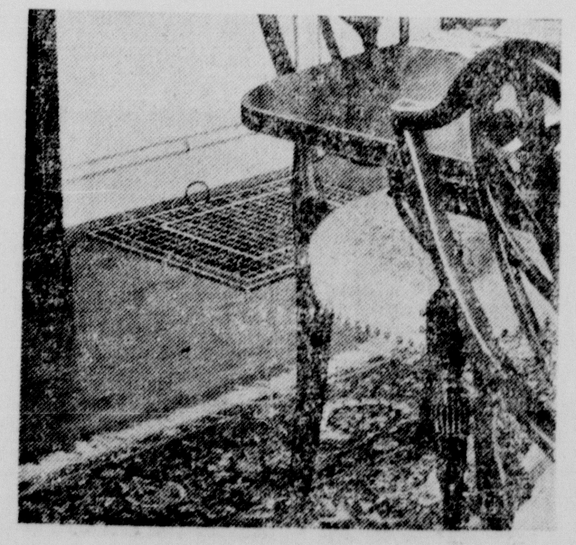
Circulator

Inside this streamlined casing is a miniature furnace-unit, with drums and baffles for wide-spread heat to handle the toughest cold spots. Keep it dusted, inside as well as out.



Floor Furnace

Keep the atmosphere as smooth as velvet, with this built-in furnace-unit that gives a wide-spread circulating warmth. Since the flame never touches the air in the room (because the firebox vents out a flue), the walls will not sweat. Nothing shows but the metal grille.

YELLOW COWARDS RUN AWAY FROM THE FIGHT

United States land based bombers and naval planes together with units of the Amrican Fleet in South Pacific waters had accounted for 50 ships in the spreading battle of the Solomons.

The Japanese navy is seeking refuge in the harbors of small islands scattered over the Pacific, running away from a fight with the revengeful American boys who "Remember Pearl Harbor."

A recapitulation of the toll taken of the enemy, it was announced in Washington Friday showed that at least 50 ships have been sunk, damaged or put out of commission since the battle opened last week.

The Japs won't come out and fight. They sneaked into Pearl Harbor and struck a blow at our fleet there while talking friendship in Washington.

(continued from page one)

Now they are face to face with the grim realities of a real fight and they run away. Not all have escaped but the Japs have put such distance between the fleets that contact has been lost and the fight has been temporarily broken off.

On the whole things looked a bit better for the United Nations. Bombing planes raked Germany from one end to the other last night as Americans joined in the round the clock attacks on the Reich.

The second front, however was still in mid-air. Russia was doing better and that will give the United States and Britain a chance to ease up a bit and parry the blows of public opinion.

From where I sit . . .

by Joe Marsh

IT'S real puzzlin' when you stop to think about it . . .

I mean the way the human race has worked out a whole set of cut-an'-dried alibis for its misdeeds and shortcomings.

* * *

Some of them's harmless alibis—like the office boy's grandmother who always passes away just before the big baseball game.

Here's some others. "My alarm clock didn't go off." "I left my money in my other suit"—"I was settin' up with a sick friend."

* * *

And then the one about the two beers. Now that one is downright exasperatin'.

Because there's not a shred of truth in it.

Every once in a while I read in the papers about some ornery cuss, who never *did* know the meanin' of moderation, gettin' himself into trouble—

—and then protestin' that all he had to drink was "a couple of beers."

He knows it isn't true. He's just sayin' that because he knows that "a couple of beers" sounds moderate and sensible-like—*and it is.*

Personally, I don't ever remember seein' a couple of glasses of good beer, enjoyed among friends, hurt any normal, sensible person.

If you won't get in trouble without beer, you aren't going to get in trouble with it.

Matter of fact, it's been my observation right along that a friendly glass of beer in pleasant sociability leads to just the opposite of trouble.

It goes along, seems to me, with good companionship, and moderation, and tolerance for the other fellow.

* * *

Yes, sir, from where I sit, it looks like the fellow that goes and gets himself in trouble, and then blames it all on a "couple of beers" isn't *really foolin'* anybody.

But he is bein' mighty mean and unfair to the people that enjoy the right to a sensible moderate drink like beer—yes, includin' "a couple of beers."
